

ENGINEERED FOR THE ATHLETE

 **ENGINE**

## ENGINEERED FOR THE ATHLETE

What began in 2020 out of Columbia Maryland, has now become one of the fastest growing sports brands in the United States. What was nothing more than a hobby for designing t-shirts and sports jerseys for local bands materialized in a nationwide brand.

We wanted to bring a Pro Level material to the local hockey and basketball scene with unlimited design capabilities. Now, 3 years later, ENGINE has expanded to baseball and tournaments, with sights set even higher for 2024.

With a small team of top level artists, we are here to help you bring your vision to life. We specialize in embroidery, tackle twill and full sublimation using only the top rated materials on the market, fully tested to ensure the performance and durability at the highest levels of the game. Not only schools or adult league clubs, we also collaborate with a wide array of artists and musicians to bring their athletic clothing line to life!

Athlete & Firefighter owned and operated. We know what the athlete wants because like you all, we still play the game too. With the name arising from the Fire Service, the Fire ENGINE is the backbone of the Fire Service. No fire-ground can be controlled without the Fire Engine. Now, the Engine athlete will take the field, ready to dominate.

# HOCKEY WITH PURPOSE

ENGINE

A venture years in the making. Hockey With Purpose is a 501(c)3 non-profit dedicated to raising funds and awareness for various charities throughout North America through the venue of the great game of hockey. Proceeds from all HWP events will always benefit our non-profit partners or a special cause or further our mission to enhance the game of hockey.

Our Foundation was created out of a desire to use our hockey community to improve or raise awareness and give back to many causes. As most events usually partner with a specific charity is nothing new, we want to bring a unique vision to hockey events throughout the east coast. Combining our love for competition and community, our events are truly unique.

Our Board of Directors all came together through a desire to build a different type of sports brand; one that improves the lives of those who embrace the hockey community. All our directors have worked with each other in the past on a multitude of events, with over 50 years combined time in the music, concert, sports, and live event industry.

# WHAT'S NEW IN 2024

ENGINE will be expanding to Football, Soccer & Swim Wear in 2024.

As well as hosting our own Sports Tournaments & Summer Sports Camps.

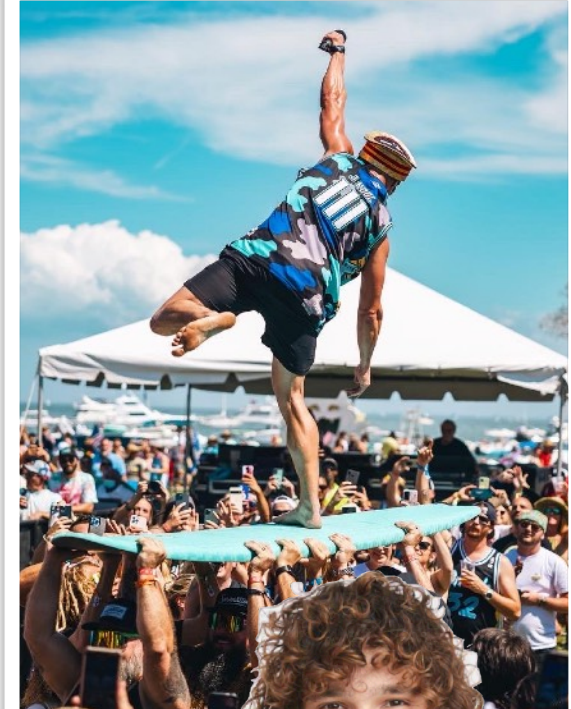

We're not just Engineering quality athletic wear... We're Engineering Athletes...

# ROOTS 95 APPAREL

A Division of Engine Athletics LLC

Becoming the leading jersey apparel partner for the reggae, rock, hip hop and punk rock scene, *Roots 95*, a subdivision of Engine is bringing a top athletic wear to the music scene.

At *ENGINE*, we offer custom printing, graphic design, and screen printing services for businesses both large and small. We also provide 4K Printing, Full Color Printing and Direct to Garment Printing. There's nothing stopping you from making your project a reality with us! We are looking forward to working with customers throughout all of the US and continuing to offer a premier printing experience.

## SKATE BOARDS

SKATE LIFE has become mainstream. Tony Hawk, VANS, and so many others have inspired so many young people to grab the board and give it a try. A popular trend as well has been the commemorative band or artist skate decks.

R95 BOARDS is proud to offer this new collaboration piece to our partners. Fast turnaround times, 100% customizable with small MOQ's.
